RE: [Bill # or Subject]

Dear [Senator/Representative] [Last name of legislator]:

I am writing to urge the state Legislature act immediately on the issue of property tax reform in Connecticut. Connecticut's over-use of property taxes to support essential services, such as education, needs immediate correction. High property taxes burden home owners, are not based on an individual's ability to pay, and erode community support for essential school programs and services.

[Insert additional comments that personalize the letter]

Connecticut needs a balanced system of taxation that supports public schools without overburdening property taxpayers. The first step to reach this goal would be for the state Legislature to meet to address this issue. Property tax reform should not be delayed any longer.

Thank you for your attention to this critical issue. Connecticut's citizens need immediate action on property tax reform.

Sincerely,

[Your name]
